Bid No. 118-21
Office & School Supplies and Equipment

Dear Jonathan Geiszler,
Director, Purchasing and Warehouse
Kathy Gutierrez Miller,
Buyer,

Thank you for the opportunity to respond to Newport Mesa Bid No. 118-12.

All of us at Office Solutions take great pride in carefully reviewing and responding to customer requests, contractual requirements, and servicing commitments. As an Orange County business, it is especially rewarding to focus our efforts and expertise in support of Newport Mesa School District, Orange County Schools and California Schools in general. While we trust that you will find our response extremely competitive and responsive to your stated requirements, should Office Solutions be selected for award, we appreciate and respectfully request clarification of the following three topics during contract finalization and approval.

A. Pricing- We understand and agree to the annual core contract hold on pricing. We respectfully request exception for unforeseen extreme market volatility such as environmental or tariff related impacts should they occur. These are usually well established and widely communicated when they occur. We would request consideration as they become known and impactful to our costs.

Renewal Option- Price not to exceed %\_\_\_\_.

We have provided a limit to price increases as requested and will provide all documentation as required. We request the same consideration for unforeseen product volatility under the same conditions with the request for the same considerations as above.

Bid Form #9. – District requests option to purchase additional items from vendor's catalog.

Our proposed response to Newport Mesa Unified School District Bid no. 118.12 included a detailed review of your full year usage provided in your documentation. The correct balance of core and catalog purchases is critically important to you, and your servicing dealer. It is the only way to ensure the best price for you on your most important purchases while ensuring a reasonable return for the dealer to cover costs and a small profit. Understanding the good will extended through your contract to other school districts, we must assume a reasonable mix of core and catalog purchases from participating schools and reserve the right to review services when participation is not in our best interest.

C. Minimum Order Solutions- We all know the costs associated with numerous small individual orders on customers for order processing and receiving, dealer for ever increasing freight and servicing costs as well as environment impacts. Without average order size data to assist in delivery cost estimates, and the requirement for school site delivery as determined by each individual school district, we would request your assistance in establishing a solution for this additional cost. While there are a number of options such as specific delivery days to accumulate orders, there is often a reasonable minimum order amount to encourage planning to save both organizations added costs. With fuel costs on the rise again, a \$75.00 minimum order fee is one potential solution and common to most contracts and service agreements today.

Thank you in advance for your consideration, and we look forward to the results and your response.

Kind Regards,

Chris Mellgren
