Unified School District

2021-22 Unaudited Actuals Report

# **Executive Summary**

In accordance with Education Code Sections 41010 & 42100, the district files a report of receipts and expenditures prepared in a format as prescribed by the State Superintendent of Public Instruction with the Orange County Department of Education. This report is compliant with the California School Accounting Manual. The contents of the report are audited by district's external auditor who reports directly to the Board of Education. The auditor will report the results of the audit in December.

The 2021-22 year began largely as a recovery from COVID-19. The federal and state governments launched a myriad of funding streams and new mandates to combat the impacts of the virus, which touched all aspects of the district's instructional programs, operations, and finances. This made for a very challenging year of implementing new programs, safety measures, and monitoring regimens.

"The last two years
have created
unprecedented
challenges for schools,
teachers, families and
children. The COVID-19
Pandemic has
stretched the capacity
of public schools like
never before."
California Dept. of
Finance

Although it was feared that the district's property tax base would take a hit, thankfully, the housing market remained robust. Consequently, the district finished 2021-22 in strong fiscal shape, albeit somewhat divergent from what was expected at the beginning of the year. Subsequently, the unaudited actuals deviate somewhat from the June adopted budget. This diversion was necessary to incorporate the numerous changes thrust upon the district to adequately respond to the pandemic.

Overall the district's financial performance flexed to meet changing needs reflecting dramatic changes to health and safety constraints. The district began 2021-22 with substantial uncertainty. Fortunately, ample federal and state

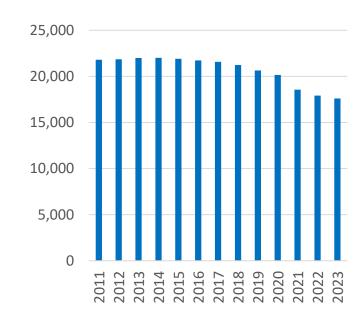

resources have supported the district's response. In addition, stout property values have positioned the district to address the long-term needs of its students and community that have been brought about by unprecedented challenges associated with the virus.

The district revises the budget at specific intervals including 1<sup>st</sup> and 2<sup>nd</sup> Interim. Another revision is made at the end of the fiscal year known as Estimated Actual. These revisions include various assumption changes and corrections which all lead to the Unaudited Actuals Report. The following pages include financial statements and reports following the State's Standard Account Code Structure. Also included

are illustrations and comparisons associated with the district's financial progress throughout the year.

# Enrollment

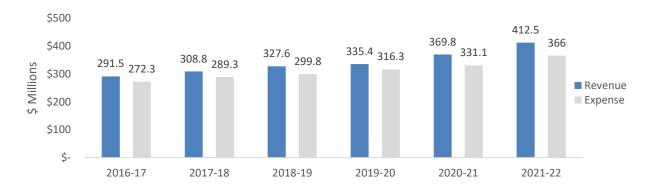

For many years the district experienced very stable enrollment; however, recently, since 2014-15, the district has experienced an increasing rate of enrollment decline. The drivers of this trend include lower births and compact housing development. Although COVID exasperated the impact of the decline in the 2020-21 year, the rate of decline appears to be flattening substantially on a going forward basis.

# Revenue and Expense

Both revenue and expense increased in 2021-22 from the prior year. The revenue rate of increase exceeded the rate of expenditure increase, 11.5% compared to 10.5%, respectively. This reflects programs wherein the revenue is received in one year but expensed over the course of a number of years.

Staffing increased 12 percent while non-staffing increased 0.25 percent, reflecting substantial staffing and robust restricted expenditure growth.

# Other Financing Uses and Sources

Contributions to various restricted programs totaled \$62,618,816. Transfers out of the General Fund to other funds totaled \$31,601,337 consisting of: Nutrition Services \$431,390, Special Reserve Fiscal Stabilization \$8,000,000, \$22,300,000 Special Reserve for Capital Projects and Other Post Employment Benefits \$869,407.

# **Ending Fund Balance**

The district's 2021-22 Ending Fund Balance increased primarily due to higher restricted resources while the percent of the ending fund balance held in reserve was maintained. This reserve's purpose is chiefly to satisfy General Fund cash flow needs and is approaching the 17 percent best practice level which positions the district to meet the needs of its students and community during an unprecedented time of challenge.

The California Department of Finance recently issued guidance regarding Ending Fund Balance level including, "State leaders should be very cautious as they prepare for the upcoming year. A 17 percent reserve equals about 2 months of expenditures and is a common standard for local public agencies."

# Local Control Funding Formula Supplemental Allocation

The Local Control Accountability Plan has become the main driver of the budget. Within that plan is a LCFF Supplemental Funding target amount that is to be set-aside for increased and improved services for students that are English Learners, Low Economic, and Foster Youth. The district's LCFF supplemental actual expenditures totaled \$14.5M resulting in a calculated carryover of \$438,754. COVID brought about service delivery challenges and funding replacements to the LCFF Supplemental allocation resulting in the lower expenditure. It is important to note, that unlike other LCFF districts, due to N-MUSD's community funded status, the district receives no LCFF Supplemental funding from the State; in other words, the district funds this out of its own pocket which is reflective of the Board of Education's priority to ensure all students succeed.

#### Part I - General Administrative Share of Plant Services Costs

California's indirect cost plan allows that the general administrative costs in the indirect cost pool may include that portion of plant services costs (maintenance and operations costs and facilities rents and leases costs) attributable to the general administrative offices. The calculation of the plant services costs attributed to general administration and included in the pool is standardized and automated using the percentage of salaries and benefits relating to general administration as proxy for the percentage of square footage occur

#### Part II - Adjustments for Employment Separation Costs

When an employee separates from service, the local educational agency (LEA) may incur costs associated with the separation in addition to the employee's regular salary and benefits for the final pay period. These additional costs can be categorized as "normal" or "abnormal or mass" separation costs.

Normal separation costs include items such as pay for accumulated unused leave or routine severance pay authorized by governing board policy. Normal separation costs are not allowable as direct costs to federal programs, but are allowable as indirect costs. State programs may have similar restrictions. Where federal or state program guidelines required that the LEA charge an employee's normal separation costs to an unrestricted resource rather than to the restricted program in which the employee worked, the LEA may identify and enter these costs on Line A for inclusion in the indirect cost pool.

Abnormal or mass separation costs are those costs resulting from actions taken by an LEA to influence employees to terminate their employment earlier than they normally would have. Abnormal or mass separation costs include retirement incentives such as a Golden Handshake or severance packages negotiated to effect termination. Abnormal or mass separation costs may not be charged to federal programs as either direct costs or indirect costs. Where an LEA paid abnormal or mass separation costs on behalf of positions in general administrative functions included in the indirect cost pool, the LEA must identify and enter these costs on Line B for exclusion from the pool.

#### **Normal Separation Costs (optional)**

Enter any normal separation costs paid on behalf of employees of restricted state or federal programs that were charged to an unrestricted resource (0000-1999) in funds 01, 09, and 62 with functions 1000-6999 or 8100-8400 rather than to the restricted program. These costs will be moved in Part III from base costs to the indirect cost pool. Retain supporting documentation.

#### **Abnormal or Mass Separation Costs (required)**

Enter any abnormal or mass separation costs paid on behalf of general administrative positions charged to unrestricted resources (0000-1999) in funds 01, 09, and 62 with functions 7200-7700. These costs will be moved in Part III from the indirect cost pool to base costs. If none, enter zero.

#### Part IV - Carry-forward Adjustment

The carry-forward adjustment is an after-the-fact adjustment for the difference between indirect costs recoverable using the indirect cost rate approved for use in a given year, and the actual indirect costs incurred in that year. The carry-forward adjustment eliminates the need for LEAs to file amended federal reports when their actual indirect costs vary from the estimated indirect costs on which the approved rate was based.

Where the ratio of indirect costs incurred in the current year is less than the estimated ratio of indirect costs on which the approved rate for use in the current year was based, the carry-forward adjustment is limited by using either the approved rate times current year base costs, or the highest rate actually used to recover costs from any program times current year base costs, if the highest rate used was less than the approved rate. Rates used to recover costs from programs are displayed in Exhibit A.
